

Job management system for Kerrighed

Marko Novak, XLAB

□ based on DRMAA specifications

So what is DRMAA anyway?

- ❑ **Distributed Resource Management Application API**
 - ❑ **a high-level API specification for the submission, control monitoring of jobs**
 - ❑ **managed by Open Grid Forum (OGF)**
 - ❑ **DRMAA specifications:**
<http://www.ogf.org/documents/GFD.22.pdf>
 - ❑ **DRMAA home page: <http://drmaa.net>**
-

What Kerrighed gains by using DRMAA

Partner's logo (optional)

- ❑ **standardized API for submitting jobs (another thing to boast with on web page ;))**
 - ❑ **user will be able to submit and control jobs to Kerrighed from remote computer**
 - ❑ **all applications that support DRMAA (e.g. apps for Torque, Condor, Sun's SGE) should be able submit jobs to Kerrighed**
-

Partner's logo (optional)

Thank you!!!
